# The Blue Aura

Crafted by nature, treasured for generations

## Gem Overview

# 150 ct

Carat Weight

One of the largest Kashmir sapphires in existence

# ₹750 Cr

Total Value

₹5 crore per carat valuation

# Pre-1900

Origin Date

From the original Kashmir mines

This gem is not merely a stone; it is a legacy piece reserved for the elite circle of royal collectors, ultra-high-net-worth individuals, and prestigious museums.

# The Blue Aura

Crafted by nature, treasured for generations

## The Perfect Cut

### Square Mixed Cut

A masterstroke of lapidary artistry that enhances the gem's natural brilliance while preserving maximum weight and structural integrity.

Light dances effortlessly through its expertly angled facets, creating an otherworldly luminescence that captivates instantly.

# The Blue Aura

Crafted by nature, treasured for generations

## Unmatched Color

### Velvet Cornflower Blue

The finest hue known to sapphire connoisseurs

- Rich, saturated blue with perfect even distribution
- Characteristic velvety appearance unique to Kashmir origin
- Natural color with no treatments or enhancements

This mesmerizing blue exhibits a depth and quality that cannot be replicated in sapphires from any other origin.

# Exceptional Clarity

## Near-Flawless

Despite being a Type II gemstone, this sapphire exhibits exceptional clarity with only minute natural inclusions.

## Origin Verification

The minimal inclusions present are consistent with Kashmir origin and serve as nature's fingerprint, confirming its prestigious provenance.

## 100% Natural

Completely untreated, preserving its natural beauty and significantly enhancing its value and collectibility.

## The Legendary Kashmir Mines

Unearthed from the fabled Zanskar region of Kashmir – a source that ceased production in the early 20th century.

Kashmir sapphires are considered the most prestigious and valuable in the world, with their unique cornflower blue color and velvety appearance impossible to find elsewhere.

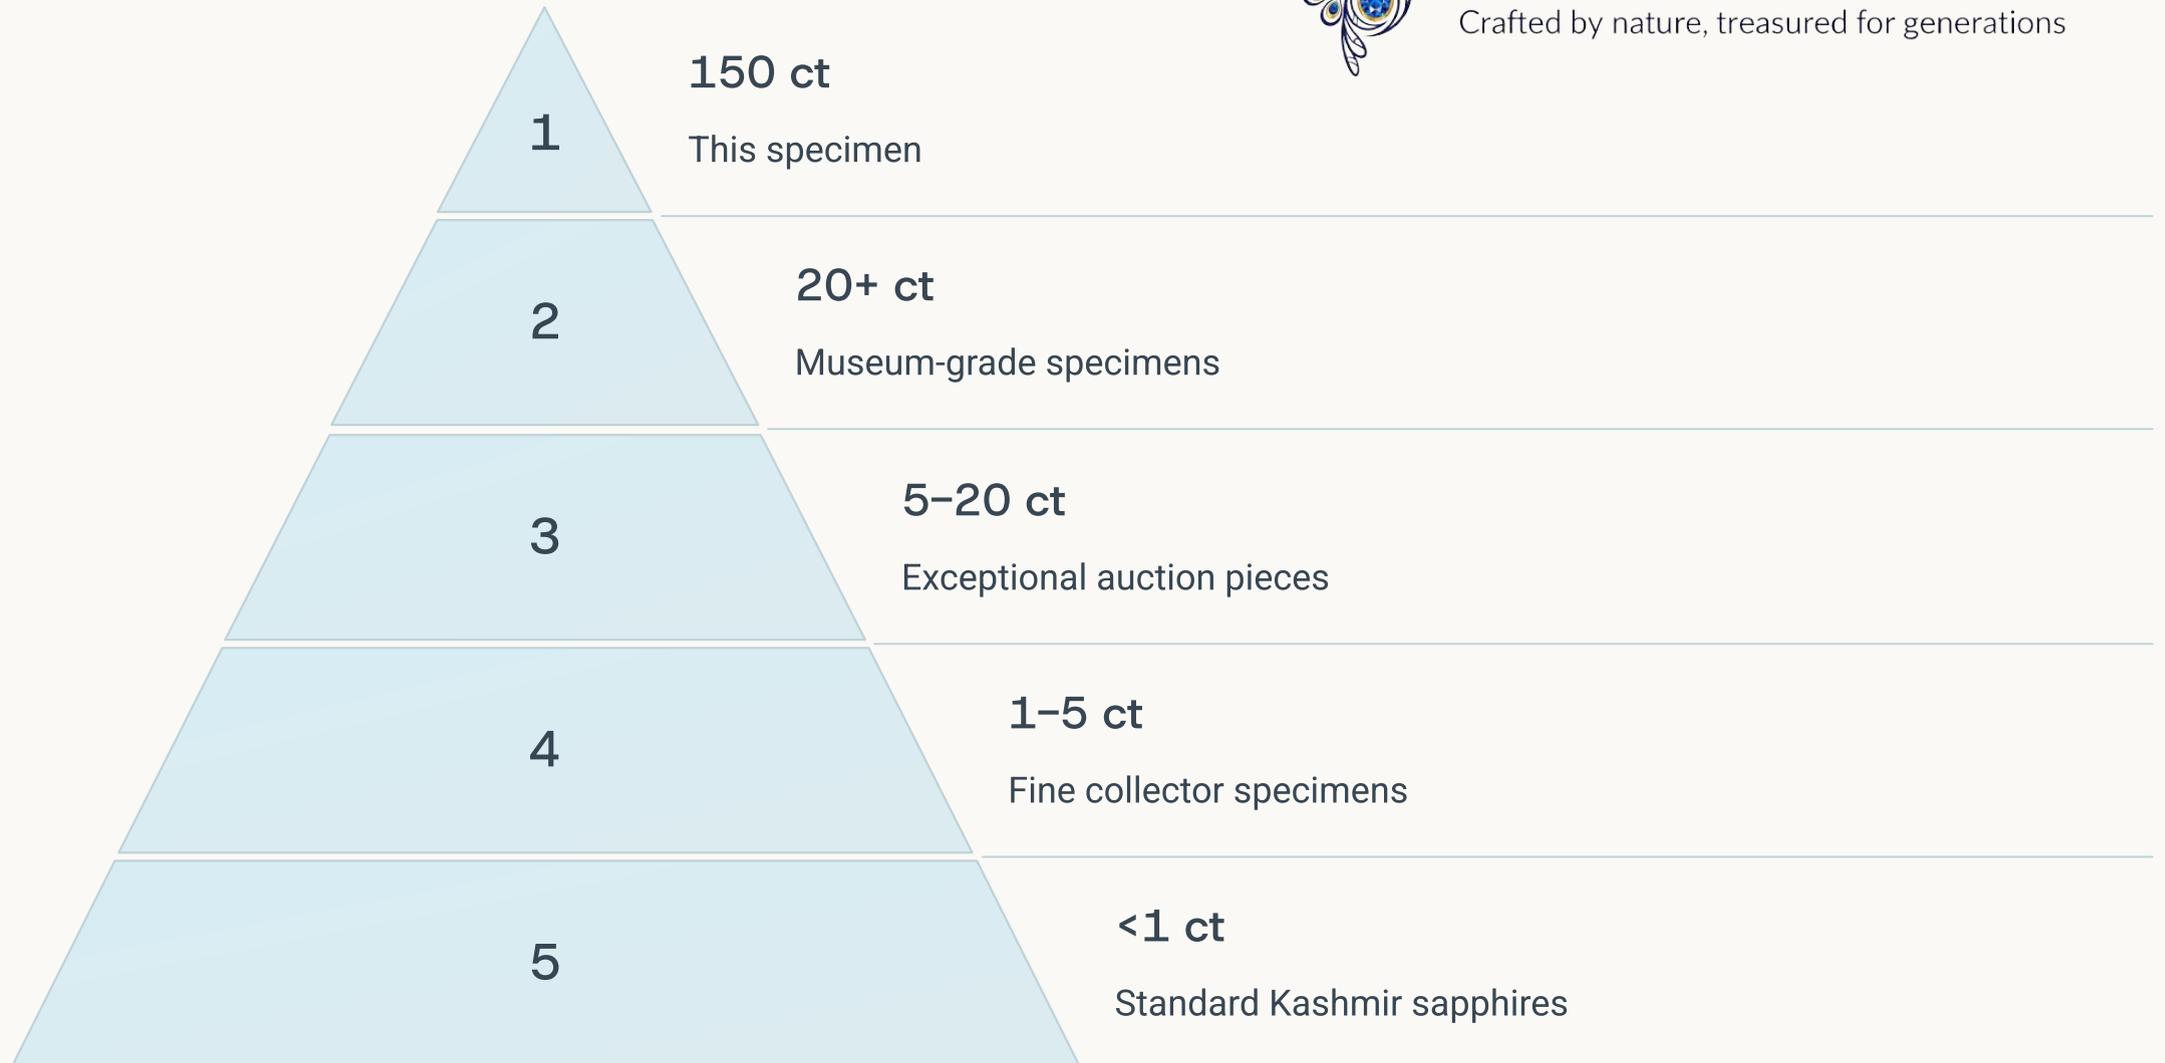

With the mines closed for over a century, each genuine Kashmir sapphire represents an irreplaceable treasure of geological history.

# Extraordinary Rarity

The Blue Aura

Crafted by nature, treasured for generations

At 150 carats, this sapphire stands in a league of its own, far exceeding the size of typical museum-quality specimens.

# Provenance & Documentation

# The Blue Aura

Crafted by nature, treasured for generations

## Elite Private Collection

This gem has impeccable provenance with full traceability and documentation.

- Complete ownership history
- Authenticated chain of custody
- Export and import documentation
- Detailed gemological reports

# Investment & Legacy

## Beyond Value

Owning this sapphire is not just an investment in a gemstone, but a commitment to rarity, heritage, and unrepeatably natural beauty.

This extraordinary gem represents:

- A future auction centerpiece
- A multi-generational family heirloom
- The jewel of a crown or museum collection

With Kashmir mines closed for over a century, no modern gem can replicate its magic or mystique.
